**RESPONSE TO RESTRICTION REQUIREMENT**

MS Amendment

Dear Sir:

In response to the restriction requirement set forth in the Office Action mailed August 12, 2004 (Paper No. 20040811), Applicant hereby provisionally elects without traverse Group I, Claims 1-5, for continued examination. The Applicant further elects for Specie A1 General Formula I with both A<sub>1</sub> and A<sub>2</sub> being hydrogen atoms, and R being C<sub>2</sub>H<sub>4</sub>. For Specie A2, the Applicant elects the sulfate ion as the Group A compound. Also, if necessary, for Specie A3, the Applicant elects KOH as the neutralizing agent.

The Examiner has also deemed claims 6 and 7 to be improper since they mainly contained method of use embodiments. However, Applicant disagrees with the Examiner in this regard since the limitation of supplying the color developing agent to the silver halide color photographic photosensitive material (or supplying the p-phenylenediamine type color developing

agent to the photosensitive material) at a rate ranging from 0.01 mol/m<sup>2</sup> to 0.5 mol/m<sup>2</sup> embodies a property of the first processing solution and not just a use. Applicant respectfully requests the Examiner to reconsider his position and review claims 6 and 7 with such an understanding.

Applicants, of course, also reserve the right to file a divisional application covering the subject matter of the non-elected claims.

Applicant believes no fee is due with this response. However, if a fee is due, please charge our Deposit Account No. 18-0013, under Order No. OMY-0032 (80276-0032) from which the undersigned is authorized to draw.

Dated: September 10, 2004

Respectfully submitted,

By
